The vehicles listed below are equipped with special windshields that contain metal in the glass that prevents the Bridge Pass from being read properly. If you are unsure about whether your vehicle has one of these windshields, consult your owners manual or contact the dealer where you purchased your car. This vehicle list may change. If you have any questions regarding your vehicle, please call the Grosse Ile Bridge Company at the number above.

A License Plate Tag (LPT) is required on the following vehicles due to being equipped with a windshield that prevents use of a standard Bridge Pass.
